Special Needs for Special Kids

These novel units are something I created and started using in my classroom. I had students with significant challenges and most were non-readers. They were the best thing I ever did, and my students LOVED them.

This novel unit has 34 different activities. These activities are NOT comprehension-based. So, even if your students do not pay attention, they can still complete the activity.

For example, students will match a giant to each helicopter. This is great for 1:1 correspondence practice.

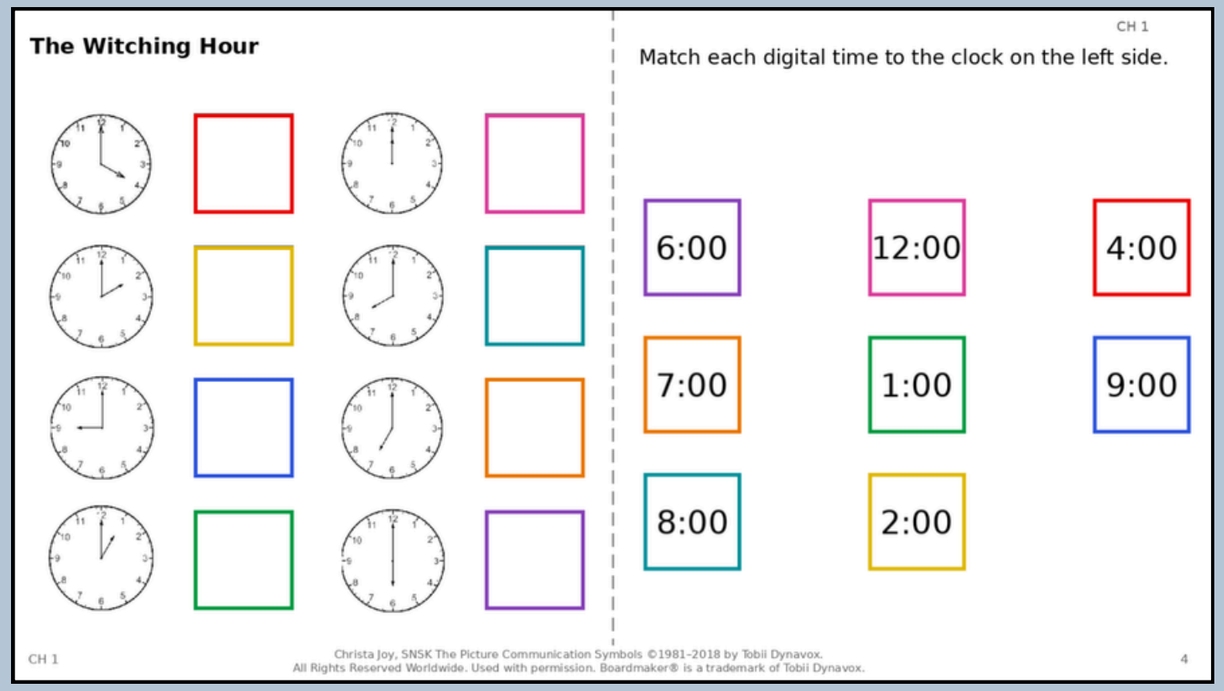

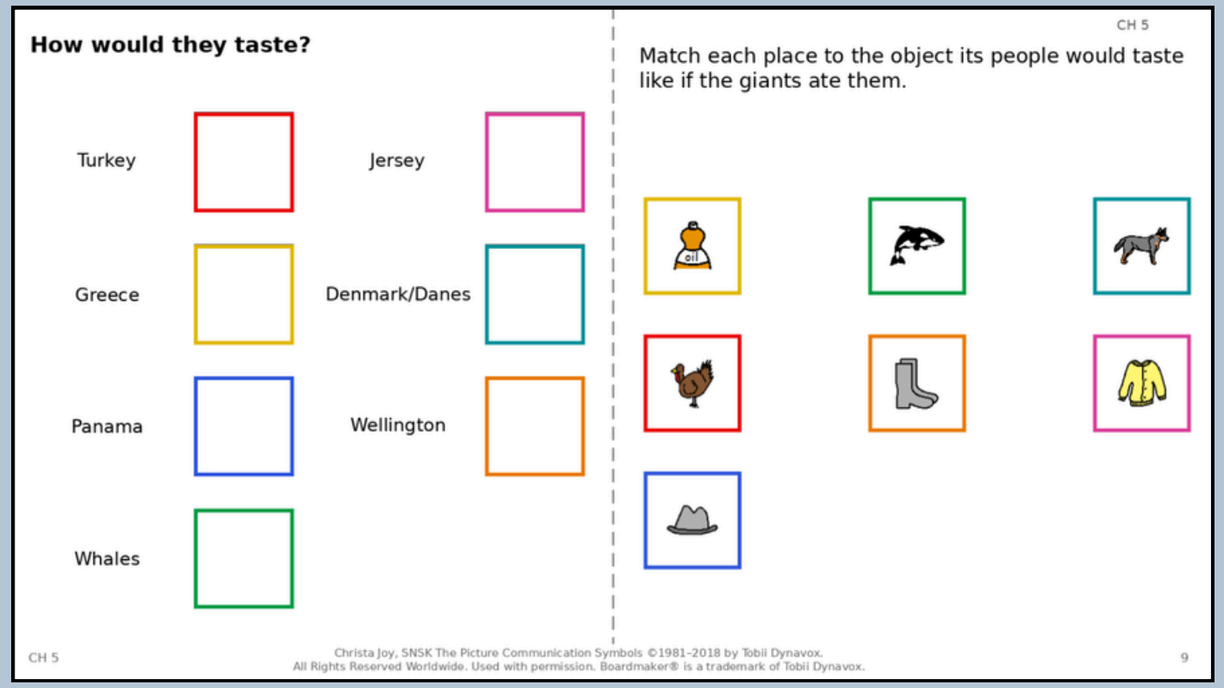

Activities and chapter questions come in a digital format as well.

The DIGITAL activities are designed for students to **move the answer pieces directly on the slides**.

A differentiated set of digital activities is also included.

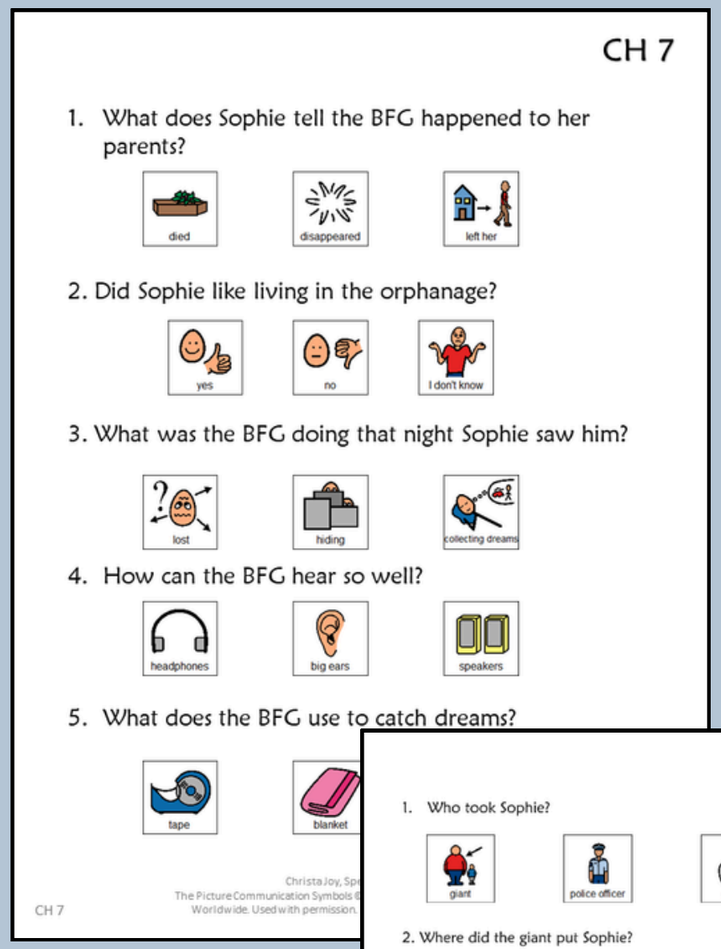

They use color coding or present an errorless option for students who need more support.

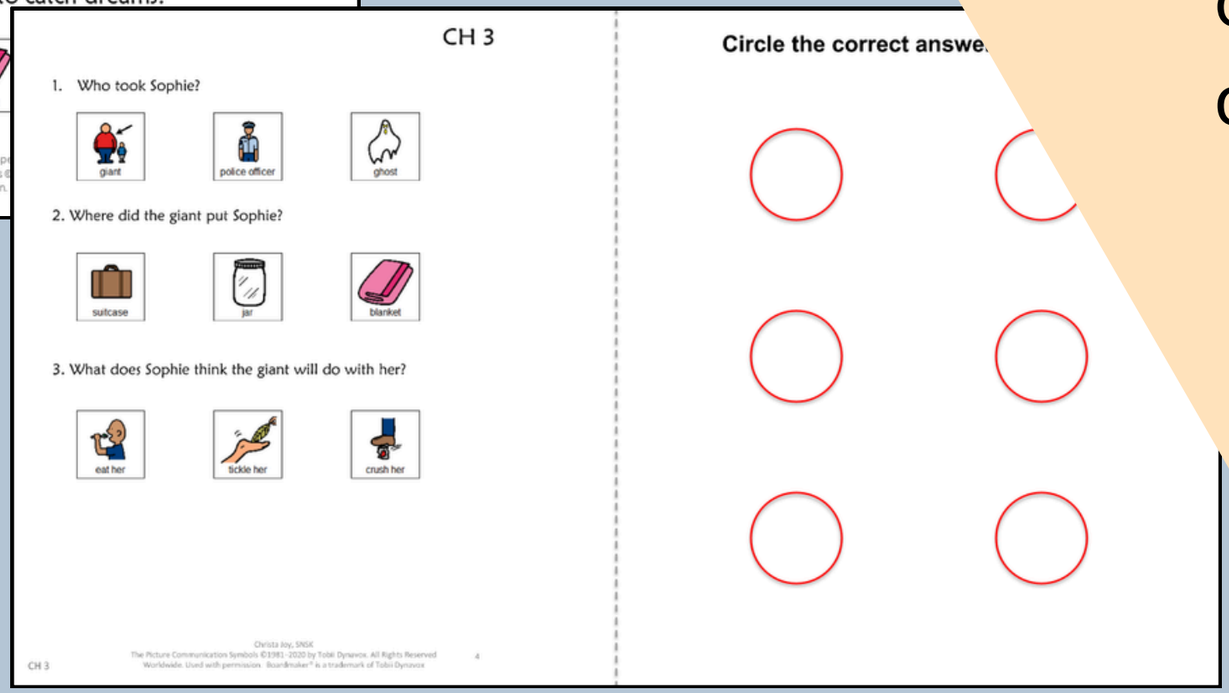

Each time you finish a chapter, there will be an activity your students can do.

The activities will relate to events in the chapter.

These are cut-and-paste activities supported by pictures, or you can assign them as click-and-drag Google Slides.

Optional: Quiz students' comprehension by having them answer 3-5 multiple-choice questions about that chapter.

Finally, this unit has 5 questions for each month/chapter. Each question has 3 picture choices.

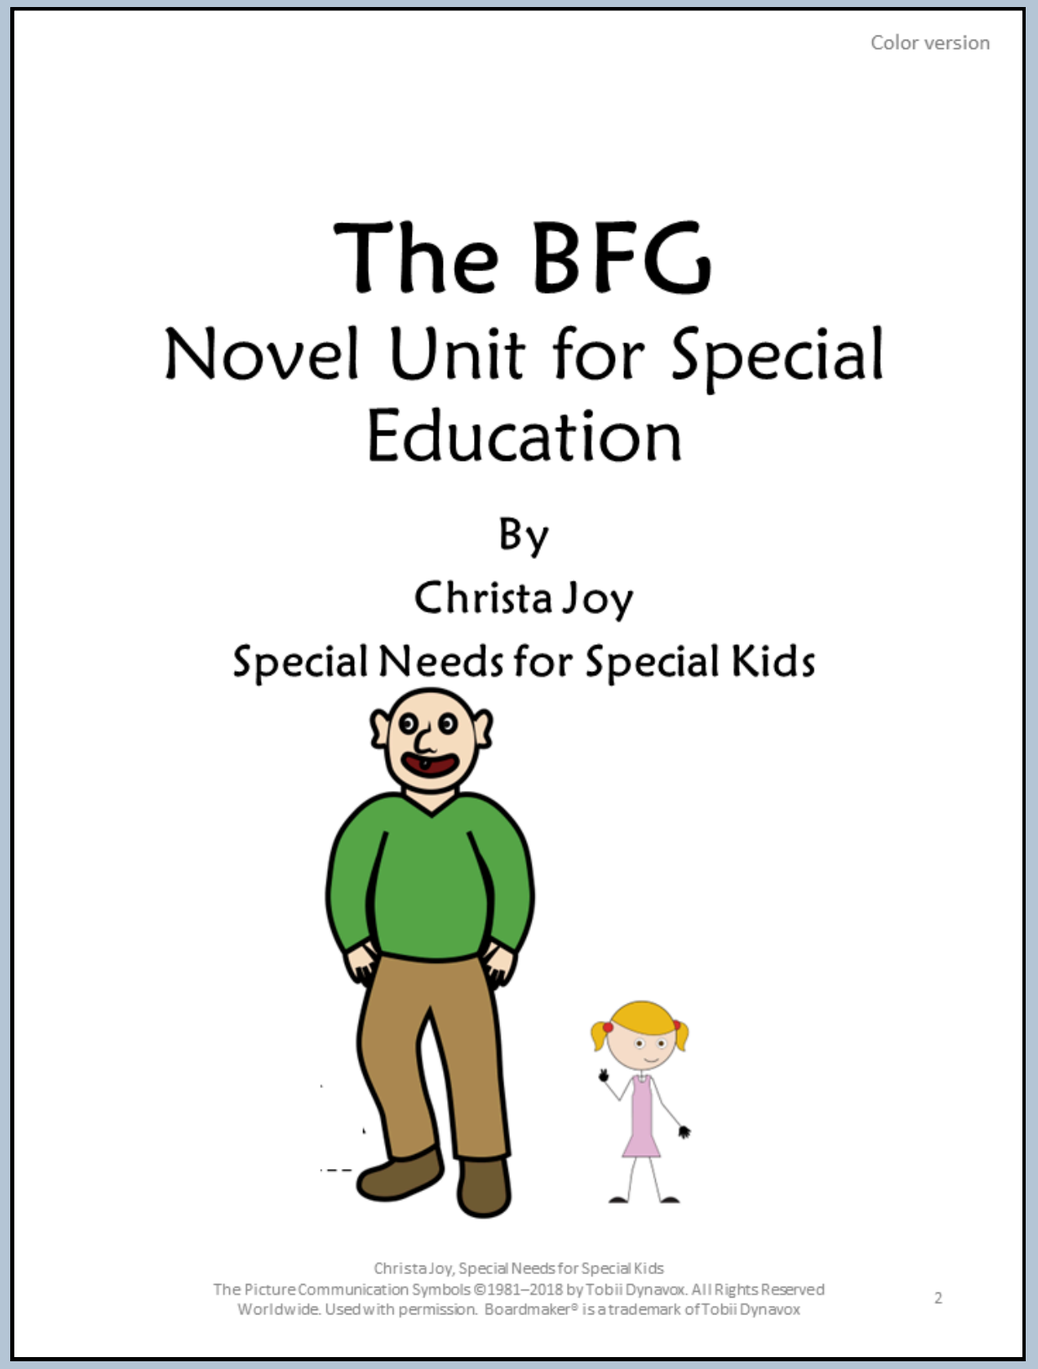

Answer key included!!

Suggestions for Use

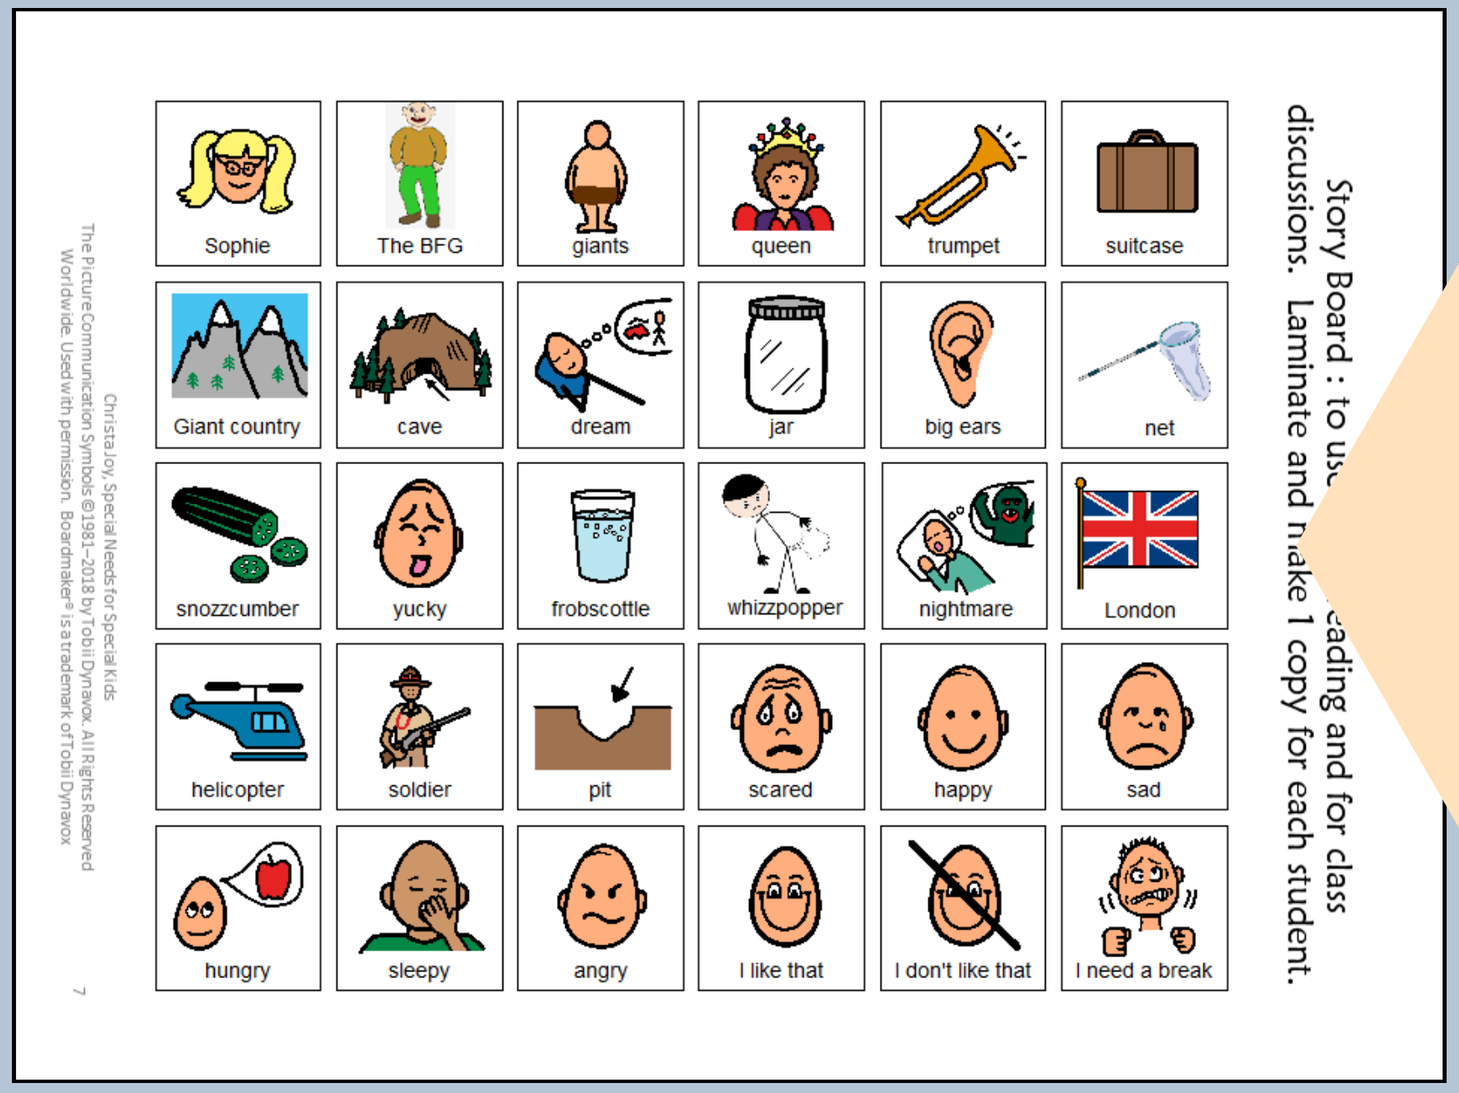

- I made this unit to go along with the book, *The BFG* by Roald Dahl.
- The thought is that you would be reading it aloud to your class at a rate of about 1-2 chapters per day.
- Be sure to give each student their own copy of the story board (pg. 7) to use while reading and discussing the story.
- Benefits of reading out loud, even to classes made up of severely affected students:
  - Teaches students to sit quietly even when there isn't something for them to do. This is such an important life skill. We all have to spend time sitting and listening to someone we are not that interested in at some point.
  - Parents will LOVE you. Not only will they be excited their child is being exposed to age appropriate material, but you are teaching them how to sit quietly, which will hopefully transfer to home as well.
  - Even with your lowest level learners, you will have 1 or 2 that will truly enjoy the story.
- It can be a calming experience to sit and listen to the teacher read in a methodical way. For students who need more structure, place the number of post-it notes in front of him/her that corresponds to the number of pages you intend to read. Remove a post-it as you finish each page. The visual will help lessen their anxiety.
- You will find activity for most chapters. You will still have plenty to choose from and find those that fit best with your students.
- Differentiation:
  - For any activity, you can quickly differentiate for your lower level learners by using a color coding technique.
  - If sorting, outline each sorting category a certain color and then outline the corresponding pictures the same color.
  - Becomes a matching task.
- There are comprehension questions to accompany this unit. There are 3-5 questions for every chapter with 3 picture answer choices. You will find these (in color and BW) in a separate file.

Suggestions on how I found this activity worked best in my classroom are provided. I typically had 6-8 students with one adult assistant in the room with me.

This entire novel unit comes in 2 separate files. One is completely in color and one is completely in black and white.

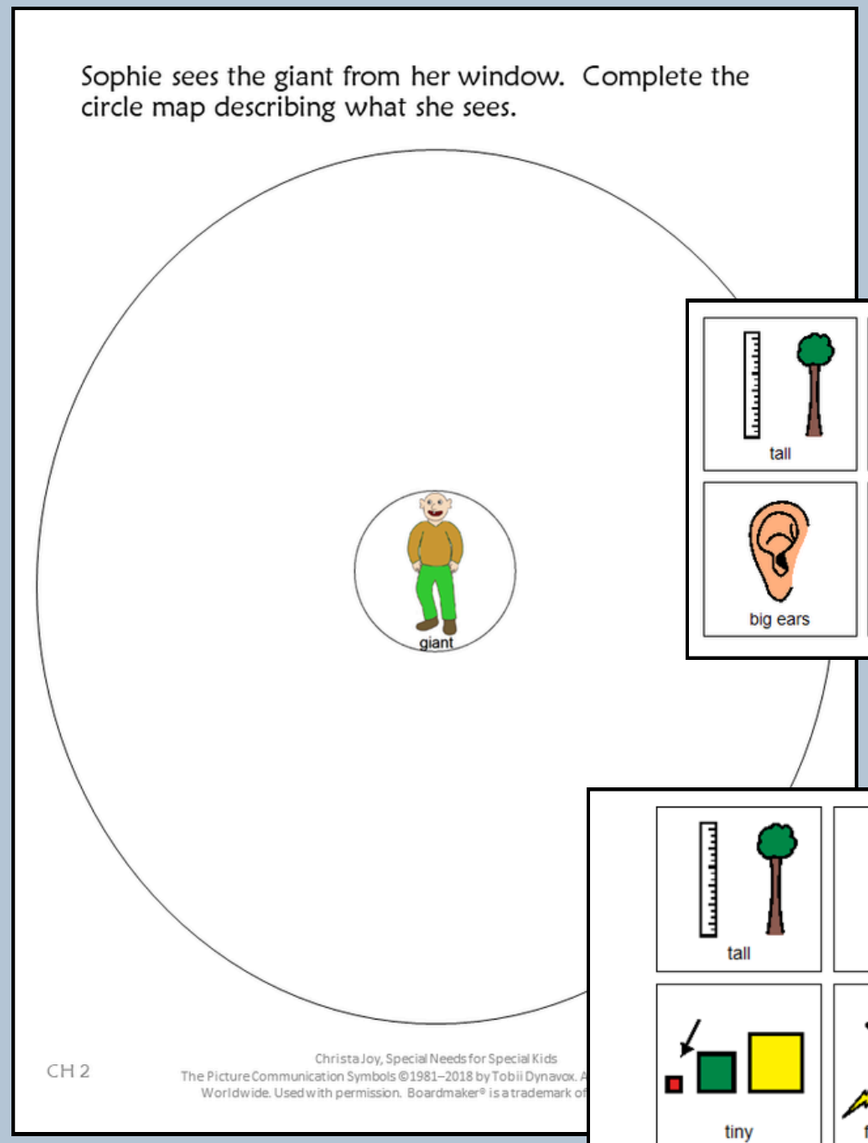

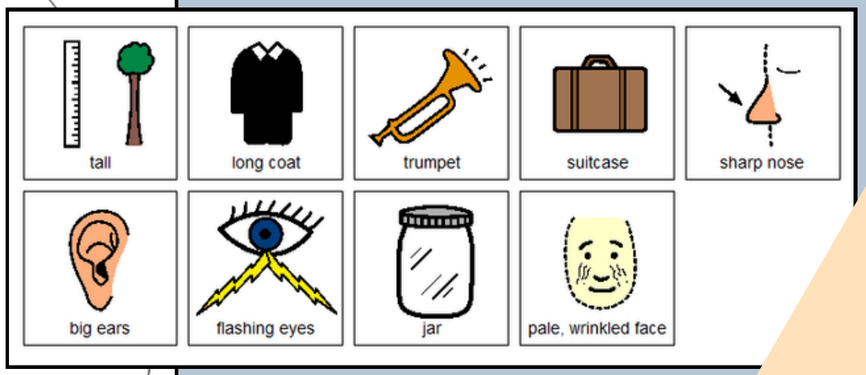

This unit comes with a vocabulary board.

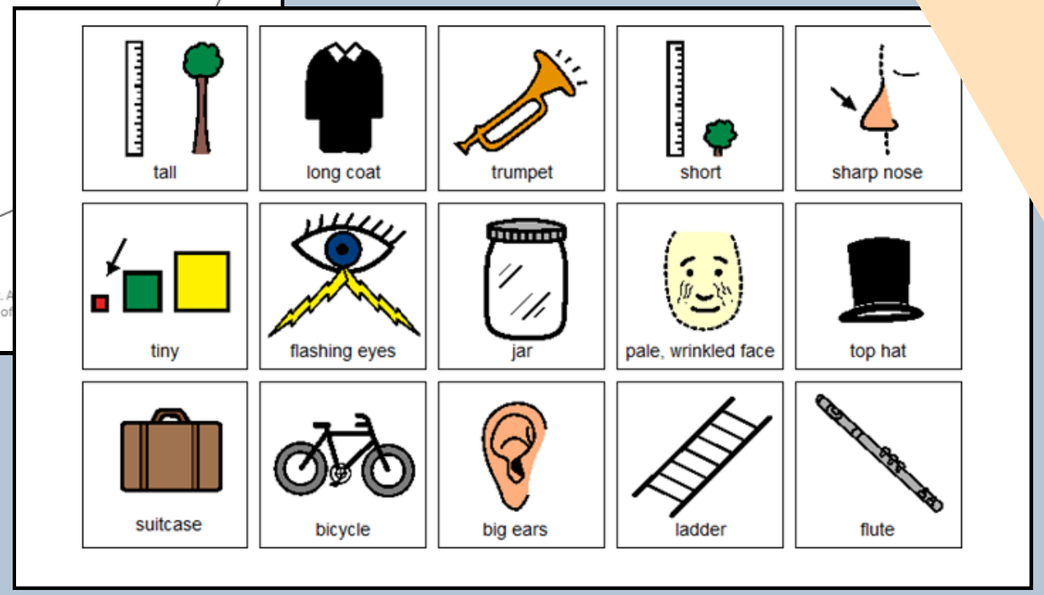

Vocabulary boards are great for ALL students to assist with participation and engagement in group discussions.

Tips on how to use in the unit!!

ERRORLESS

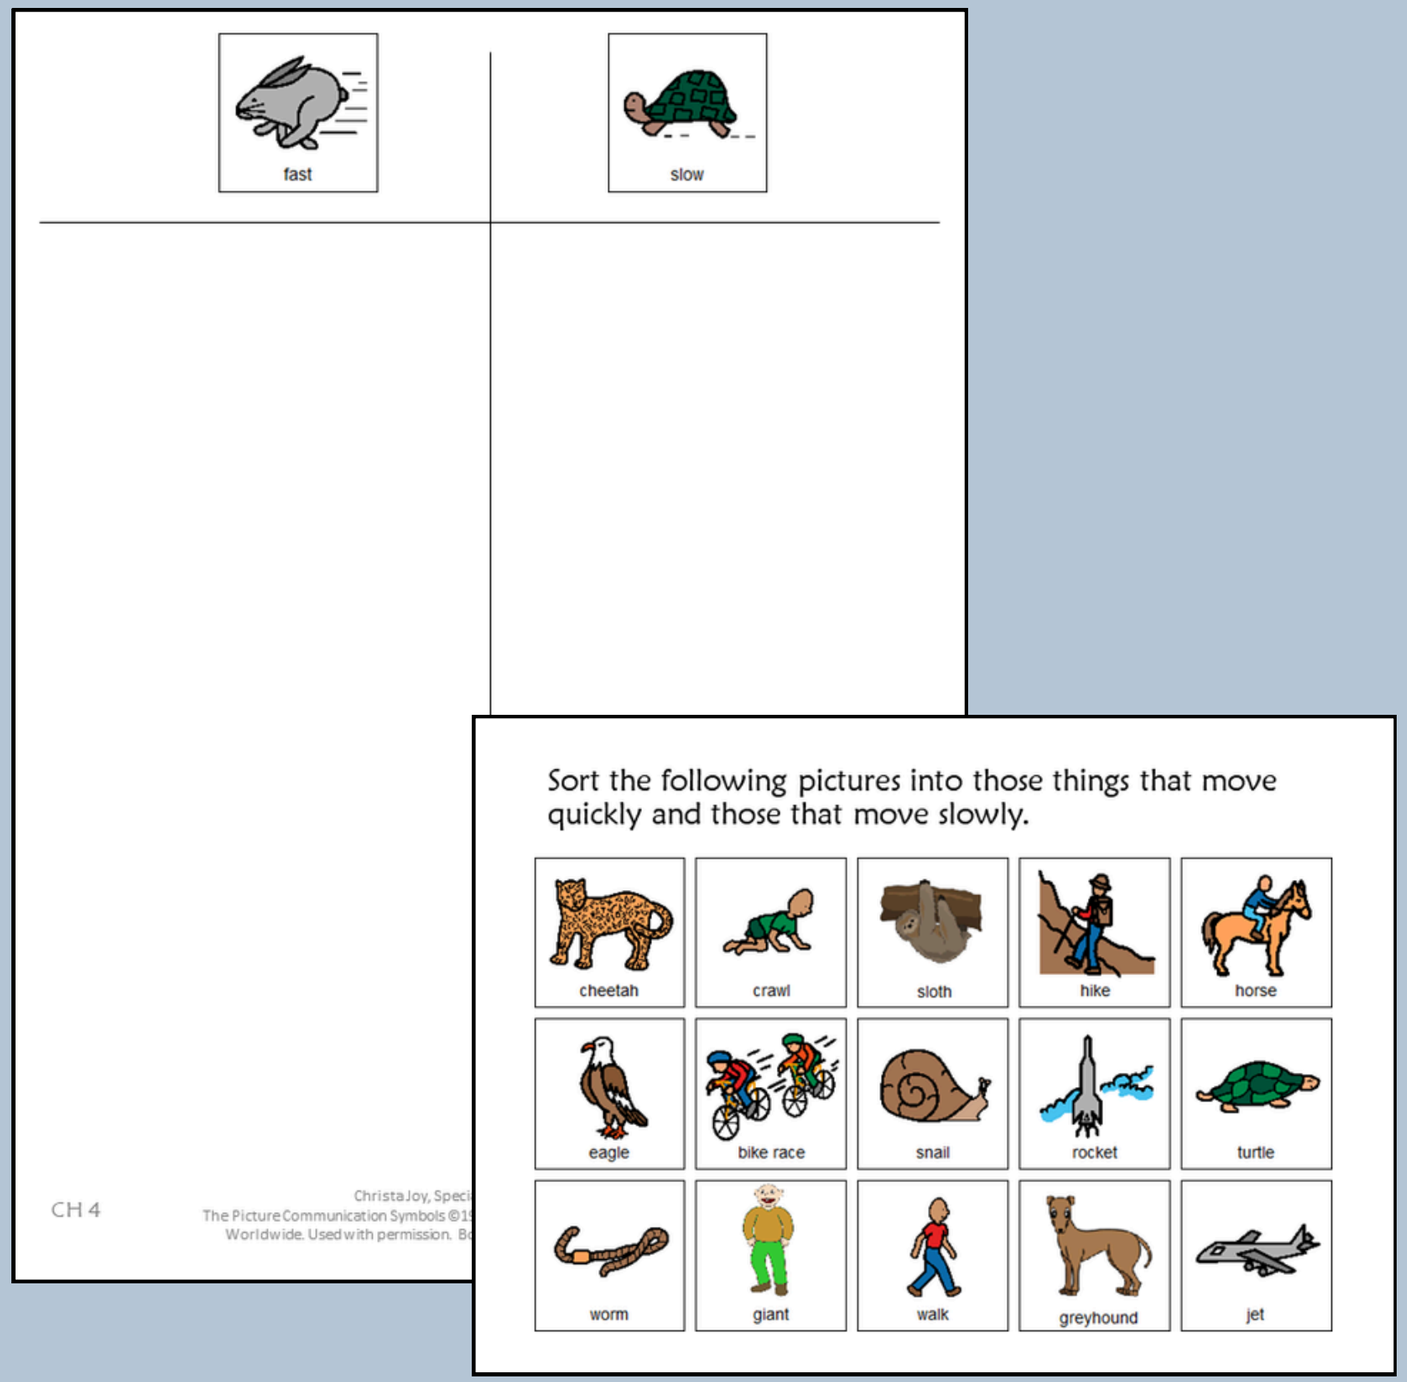

WRONG ANSWERS MIXED IN

There are circle maps in this unit.

Circle maps are a great way for students to see the big idea.

There are sorting activities.

Directions on how to add differentiation are included.

Matching Sounds

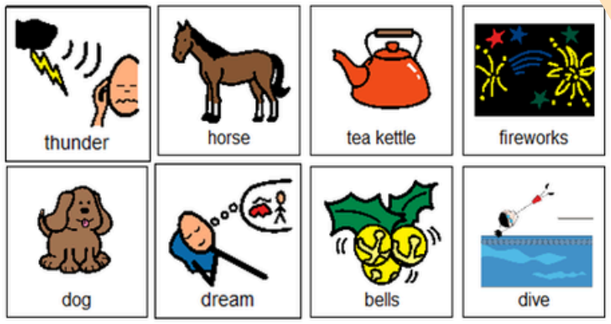

The BFG has amazing hearing. Match the sounds with the object or animal that makes them.

buzzy-hum		boom	
neigh		whistle	
boom		woof	
splash		jingle
