Special Needs for Special Kids

These novel units are something I created and started using in my classroom. I had students with significant challenges and most were **non-readers**. They were the best thing I ever did, and my students LOVED them.

This novel unit has **32 different activities**. There is an activity for each vignette. These activities are NOT comprehension-based. So, even if your students do not pay attention, they can still complete the activity.

Reepicheep has lost his tail. Sort animals that do and do not have tails.

Sort the following pictures into the correct column on the previous page. If you are not sure, place it on the middle line.

 opossum	 jellyfish	 donkey	 moose
 snail	 starfish	 raccoon	 horse
 the cow	 squirrel	 frog	 iguana
 spider	 heron	 hedgehog	 armadillo

For example, Reepicheep (a mouse) loses his tail in battle. Here, students will sort animals that do and do not have tails.

# Suggestions for Use

- I made this unit to go along with the book, *Prince Caspian by C.S. Lewis*.
- The thought is that you would be reading it aloud to your class at a rate of about ½ to 1 chapter per day.
- Be sure to give each student their own copy of the story board (pg. 6) to use while reading and discussing the story.
- Benefits of reading out loud, even to classes made up of severely affected students:
  - Teaches students to sit quietly even when there isn't something for them to do. This is such an important life skill. We all have to spend time sitting and listening to someone we are not that interested in at some point.
  - Parents will LOVE you. Not only will they be excited their child is being exposed to age appropriate material, but you are teaching them how to sit quietly, which will hopefully transfer to home as well.
  - Even with your lowest level learners, you will have 1 or 2 that will truly enjoy the story.
- It can be a calming experience to sit and listen to the teacher read in a methodical way. For students who need more structure, place the number of post-it notes in front of him/her that corresponds to the number of pages you intend to read. Remove a post-it as you finish each page. The visual will help lessen their anxiety.
- You will find activity for most chapters. You will still have plenty to choose from and find those that fit best with your students.
- Differentiation:
  - For any activity, you can quickly differentiate for your lower level learners by using a color coding technique.
  - If sorting, outline each sorting category a certain color and then outline the corresponding pictures the same color.
  - Becomes a matching task.
- There are comprehension questions to accompany this unit. There are 5 questions for most chapters with 3 picture answer choices. You will find these (in color and BW) in a separate file.

Suggestions on how I found this activity worked best in my classroom are provided. I typically had 6-8 students with one adult assistant in the room with me.

## Novel Unit for Special Education

By

*This entire novel unit comes in 2 separate files. One is completely in color and one is completely in black and white.*

*This novel is the fourth book in the Narnia series.*

Story Board : to use while reading and for class discussions.  
Laminate and make 1 copy for each student.

This unit comes with a vocabulary board.

Vocabulary boards are great for ALL students to assist with participation and engagement in group discussions.

Tips on how to use in the unit!!

Think about most ghosts you read about in stories. What is true about many (maybe not all) of them.

Place the following in the circle map showing things true about most ghosts you read about.

person is dead	in a graveyard	float above ground	walk through things	pretend
haunt places	cannot touch	can disappear	scary	see through them

Place the following on the previous page **ONLY IF** they are true about most ghosts you read about.

person is dead	in a graveyard	float above ground	real	pretend
haunt places	hug them	can disappear	scary	see through them
live at beach	cannot touch	play piano	walk through things	factory worker

There are circle maps in this unit. Circle maps are a great way for students to see a big idea.

What are some competitions that involve duels (2 players against each other)?

Errorless version

Place the pictures in the circle map on previous page showing competitions that are duels.

Place the pictures in the circle map on previous page **ONLY IF** they are duels.

Each circle map comes with 2 choices:

An errorless option with only correct answers

An option that has wrong answers mixed in students will need to set aside.

The kids realize apples are not very good cooked over a fire. What are some good and bad choices to cook over a fire?

Sort each food depending on if it is something you could cook over a fire or not. If you are not sure, place it on the middle line. There may be more than one right answer.

 hot dogs	 sausages	 meat pie	 tomato soup	 steak
 pizza	 potatoes	 birthday cake	 marshmallows	 brownie
 chicken leg	 ham	 spaghetti	 macaroni & cheese	 beans

There are sorting activities.

Directions on how to add color coding or a separate differentiated version is included.

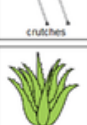

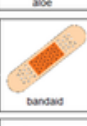

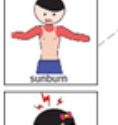

Lucy uses a special cordial to treat Trumpkin's injury. Look at the injury on the left and match it to the best treatment on the right.

 cut	 bandage
 broken leg	 antibiotics
 ear infection	 crutches
 runny nose	 aloe
 twisted ankle	 bandaid
 sunburn	 tissues
 headache	 dentist
 toothache	 aspirin

There are matching activities.

# Apples are...

I  apples.

My favorite are the  ones.

I like apples because they are .

We go to the  to get our apples.

Color in the circle

My favorite way to eat apples is in .

There are writing prompts. These are errorless activities that allow students to write a story independently.

What clues does Peter give that this used to be Cair Paravel?

What is a usurper?

Help Prince Caspian get away from the castle.

Peter realizes that things will look different from the last time he was in Narnia. Erosion is the slow wearing away of things over time by nature. Sequence the pictures below showing how the rock erodes over time.

Erosion →

Look at the location of each object in relation to the rowboat. Using the compass, determine which one is north, south, east and west.

NORTH	<input type="text"/>
N	<input type="text"/>
SOUTH	<input type="text"/>
S	<input type="text"/>

EAST	<input type="text"/>
E	<input type="text"/>
WEST	<input type="text"/>
W	<input type="text"/>

Because there are so many activities, you can choose the ones that fit your students the best.
