

## Humble Word Map– Use for chapter 18

- I like to use word maps when there is a concept or vocabulary word that I think most of my students will not know.
- This is an errorless task and uses few pictures than a circle map.
- Students will place synonyms for the unknown word in the empty circles.
- For the most advanced students, simply give them the word map and have them look in a dictionary or other source to find their own synonyms to write in the empty circles.
- This is one activity I like to do **BEFORE** reading the chapter so students can listen for the word, and will have a better understanding of its meaning in the context of the story.

Charlotte decides to use the word humble in her web to describe Wilbur. What does humble mean?

Charlotte decides to use the word humble in her web to describe Wilbur. What does humble mean?
